BECKER MUST DIE TO-DAY

Motion For New Trial is Denied Former New York Policeman

JUDGE FINDS EVIDENCE INSUFFICIENT

New York, July 28.—Justice John Ford, of the Supreme Court to-night denied a new trial to Chas. Becker, the former police lieutenant, under sentence of death for instigating the murder of Herman Rosenthal, the gambler. This decision means that Becker must be electrocuted on Friday.

Justice Ford announced his decision at 10 o'clock tonight in his chamber in a downtown office building where he had labored for several days and nights on the briefs submitted for and against the application for a new trial. He called the waiting newspaper men into his chambers and, as his secretary handed them copies of his typewritten decision, the Justice said: "I have denied the motion for a new trial. And this is my birthday. I'm 53 today. It's a pretty tough way to spend your birthday, isn't it?"

The Justice added that he had planned to spend the day with his wife and daughter.

Later—Gov. Whitman refused to commute Becker's sentence to life imprisonment and he will be electrocuted this morning.

OHIO RIVER PARTY RETURNS

The Bee's Ohio river party returned on 51 Tuesday as advertised. It was the unanimous opinion of the entire party that the trip was a great success from every standpoint. The courteous treatment and abundance of good food furnished by that prince of good fellows, Capt. John L. Lowry, was appreciated by the entire party. The moving picture show furnished by Mr. H. E. Shaw, manager of the Universal Film Company, was a decided success and showed to enthusiastic crowds each night. The music furnished by the Lowry was all that could be desired, in fact everything that could be done for the pleasure and enjoyment of the party was done and the Steamer Lowry made many fast friends during the trip. The Captain and pilot also made fast friends and made friends fast and if the trip had lasted two or three days longer there would doubtless have been heard the sound of wedding bells. Some of the party are already looking forward to another trip on the John L. Lowry next year and we hope by that time the steamer will change her run from Evansville to Paducah and make it Evansville to New Orleans.

EARLINGTON DEFEATS SENSIBLES

In Hard Fought Game on Madisonville Diamond—Score Six to Three

IN FAVOR OF EARLINGTON TEAM

The Earlinton team mopped up with Madisonville Wednesday on the Madisonville diamond. At the end of the fifth inning the score stood six to three and remained the same at the end of the ninth. Yon and Peck were the battery for Earlinton and did some splendid work and were ably assisted by the men in the field. Cummins and Shorty Johnson played with the Sensibles. It seems the tide of bad luck for Earlinton has turned and we expect to hear of several victories won by this team in the future.

MARINES GIVE PROTECTION

Rear Admiral Caperton Sends Force Ashore at Port AuPrince

Washington, July 28.—American marines were landed today at Port AuPrince, Haiti, to protect the lives and property of Americans and other foreigners.

Rear Admiral Caperton advised the Navy Department late tonight that he had sent a force ashore from the cruiser Washington. Rear Admiral Benson, Acting Secretary of the Navy, declined to make the message public, but said:

"Admiral Caperton now has the situation in hand."

There was no firing at the marines, although disorder continued in the city. It was assumed a guard had been established at the French legation and at other points to protect foreigners.

Dr. Bruce was born in Backenridge County and had been a citizen of Hopkins County for thirty years. He is survived by his widow and one son, Dr. Luther Bruce, of Paducah.

County Teachers Pledge Support

Fifty-Four Agree to Teach Moonlight Schools in the County This Fall

WIPE OUT ILLITERACY

Fifty-four teachers in attendance at the County Teachers' Institute here, Thursday afternoon, pledged their support to the movement to stamp out illiteracy in this county and will teach moonlight schools in different sections of the county for six weeks.

The Institute has been in session since last Monday and each session has been very interesting and instructive. There are about 150 teachers present. Prof. R. P. Green, as instructor, has made several splendid addresses on timely subjects that have been enjoyed.

Thursday afternoon, the meeting was devoted entirely to the Hopkins County Illiteracy Commission. Prof. R. L. McFarland, superintendent of schools in Daviess county, was scheduled to speak, but was unable to be present. Prof. J. C. Jenkins, of Dawson Springs and Prof. R. P. Green, of Bowling Green were the principal speakers of the afternoon, both speakers making an earnest appeal for teachers to co-operate in the movement to wipe out illiteracy in the state. Several of the teachers told of their experiences with moonlight schools last year.

A call was made for volunteers to teach these schools this fall and 54 of the teachers pledged themselves to take up the work. Six weeks' terms will be held. Last year there were only five schools in the county.

IMPORTANT CHANGE

Will be Made in Schedule of Interurban on August 1.

There will be some important changes to the traveling public made in the schedule of the Interurban train on the Morganfield branch and between Madisonville and Nortonville on Aug. 1st, as follows: Train 13 will leave Morganfield at 5 o'clock a.m., arrive at Madisonville at 5:30 making connection with No. 92 for Evansville and the north. Arrive at Earlinton 8:51 and Nortonville 7:08 p.m., leave Nortonville at 7:17 and reach Earlinton 7:35 where passengers for Madisonville and the Morganfield branch will be transferred to mixed train No. 46. This train reaches Madisonville at 7:55 makes connection with the Dixie Flyer south and leaves for Morganfield at 8:20 a.m. The mixed train No. 46 reaches Morganfield at 11:30 and leaves as No. 47 at 12:30, reaches Madisonville at 3:50 p.m. making connection with No. 51. The Interurban ties up at Earlinton on arrival at 7:35 a.m. and stays here until 1:05 p.m., then goes to Madisonville and makes the trips between Madisonville and Nortonville as she does on the present schedule, leaving Earlinton on last trip at 4:42 for Morganfield. The two north and south local crews will be changed back to Earlinton and have their lay over at this point. Some other changes are contemplated in the near future that will be beneficial to Earlinton.

Acknowledgement to Fire Department and Friends

I desire to make public acknowl-
edgement to the members of the
Earlington Fire Department and to
a multitude of neighbors and friends
who gave such fine and hearty help
Monday, during and after the fire
which partially destroyed my home
and turned us out and into the hands
of our friends. There has not been
done here nor elsewhere better work
than that of the Earlington Fire
Department at this fire and our ob-
ligations to its members are lasting.
All those who helped, too, seemed
most careful and thoughtful and
sympathetic. The dollars that come
from adequate insurance protection
will restore the physical loss. The
kind words and acts of the people
of Earlington go far toward cheer-
ing us past certain irreparable loss
that accompanies the destruction of
a home.

LEE GIBSON CANDIDATE

For the Democratic Nomina-
tion for Circuit Judge in
This District, Makes a
Manly Report to the Open
Letter

OF HIS OPPONENT

J. W. BLUE, JR.

Mr. Blue and I have been speak-
ing together in various parts of this
judicial district for three weeks,
and he has been saying in his
speeches I was a gentleman and a
pleasant running-mate, and if I was
successful in defeating him for this
nomination he and his friends would
cheerfully support me.

He now comes in the closing days
of this campaign and by insinua-
tion and innuendoes, cowardly at-
tacks and never manly, seeks to
show I am not worthy of the high
office I seek. Mr. Blue's letter is
the act of an old time political
trickster. If I am not worthy, it
was his duty to tell the people and
state facts showing my unworthi-
ness and give me an opportunity to
defend myself when face to face
with him.

The only promises I have made
in this campaign to any person are
those made in every public speech;
that is, I would enforce all the laws,
treat the rich and poor alike, and
give every man a fair and impartial
trial, and know no man or set of
men while discharging my public
duties.

Like Mr. Blue, I have always be-
lieved in and endorsed Farmers'
Unions and Associations, and labor
organizations, organized for legiti-
mate purposes and conducted in a
lawful manner, but I have never
belonged to or endorsed any organ-
ization whose purposes or actions
were unlawful.

I now demand of Mr. Blue if he
knows anything of my connection
with, or my friendship or partiality
for any lawless organization. It
matters not by what name it is
known, that he state the facts to
the public boldly and not seek to
couch and cower behind veiled im-
plications.

I regret at this late hour Mr. Blue
has resorted to "mud-slinging" in
the campaign for this high and dig-
nified office, and I refuse to descend
to that low plane. Mr. Blue and
what few supporters he has in this
race know that the voters of this
district, rich and poor alike, are
for me.

My whole life is an open book;
judge me by what I have done or
failed to do, and to those who have
confidence in my worthiness, I ap-
peal to stand by me in this election.

Respectfully,
Lee Gibson.

WOULD MORTGAGE FUTURE INCOME OF OUR FORESTS

Bureau Chief Advocates Limit to Stimulate Agricultural Development

Washington, July 28.—The Secretary of Agriculture anticipates future receipts from the national forests by an advance of money from Congress for the construction of roads, trails, bridges and public works would stimulate agricultural development and would relieve many communities from their burdens of taxation, said the Secretary in a circular letter contributed by the Forest Service to the Department of Agriculture yesterday issued. This position, the article, would apply especially in those counties where there is a considerable national forest land and that the forest resources now be marketed, although they will yield a large revenue. It would fully meet the difficulties arising from the fact that the national forests are subject to taxation, and the protection and development of the forest resources would remove the one barrier at a few places preventing the benefits of the national forests.

Millions of acres of land are today undeveloped because of a lack of good roads. Improving any new country road constitutes a hard problem for the settler. At first, while the settler is struggling to erect his home and farm out-dwelling and to clear his land, he cannot afford to pay high taxes otherwise contributed to the expense of road building. The national forests comprise the remotest and least settled parts of the country. In many cases farming in these localities is pioneering, under difficult conditions as have ever existed in the United States. One of the principal reasons for the failure to develop the large areas of excellent agricultural land which lie near the forests is the lack of roads.

The government is trying to meet this problem in two ways, first by public improvements being made on the national forests, and second by the direct contribution to the counties of a share in the forest receipts. Up to date the Forest Service has constructed on the forests more than 2,300 miles of road, 21,000 miles of trails, nearly 600 bridges, and 10,000 miles of telephone lines. Every one of these improvements benefits settlers and ranchers. In addition, there is appropriated annually for the use of the counties in which the national forests lie 25 percent of the gross receipts from timber sales and other sources, to be used for road and school purposes. Some of the individual forests are bringing in over \$100,000 a year, and the business of the entire national forest system is increasing so that this direct contribution to community upbuilding is rapidly growing. In fact, already a total of nearly \$800,000 is obtained from the forests every year for county road and school purposes.

Judge J. F. Gordon has returned from a speaking tour in the lower district in the interest of his race for Judge of the Court of Appeals and is delighted with the outlook in the counties where he has been.

Kentucky Practically Freed From Quarantine

Washington, D. C., July 29.—The only part of Kentucky now quarantined for four-and-a-half months is the area covered by the Bourbon Stock Yards in Louisville. These yards are being used for holding animals for shipment.

The order effective July 26 which makes this change in Kentucky and Lee's Jefferson county also removes the last quarantine in the States of Connecticut, Kansas and West Virginia, releases four counties in Pennsylvania, five in New York and one in Illinois, and confines the quarantines in Maryland and Virginia to the same restrictions on the yards at Baltimore and Richmond which have been imposed upon those at Louisville. With these changes the quarantined area in the United States is practically confined to a few stock yards and three counties in New York, two in Pennsylvania, four in Illinois and one in New Jersey. Even in these the restrictions are much less stringent than formerly.

FINED \$50 AND WHISKY RETURNED TO EVANSVILLE

Before going into retail on the charge of having whisky in his possession for the purpose of sale, William Murphy pleaded guilty to the charge and threw himself on the mercy of the court. Judge Reynolds then assessed a fine of fifty dollars against the defendant with the agreement that the ten barrels of whisky found at his house and which had been in charge of Chief of Police Lee Dever since the find was made, be returned to Evansville.

Before it was shipped out the whisky was again inspected by Judge Reynolds, Mayor Knorr, City Attorney J. C. Canaday and others and found to be intact. There were ten full barrels of pure and quality, valued at \$490. The whisky was sent back to Evansville Friday.

Says "Possum Hunters" Organization is Against Him to a Man and The Fight is Now On.

UNDER OBLIGATION TO NO MAN

(Advertising)

Gentlemen and Fellow Citizens: The race between Mr. Gibson and me is rapidly drawing to a close.

The office of Circuit Judge is, to my mind, the most important office within the gift of the people.

The rights of the people to property, life and liberty should be protected, and, to that end, the Circuit Judge, of all men should come into the office free from any entanglement or obligations that would prevent him from dealing out equal and exact justice to all persons who come into Court.

I am under no obligations to any man, organizations or class of men, and have no entangling alliances of any kind. It is my purpose to see that the law is enforced, the guilty punished, and the innocent protected. I have tried to conduct my canvass upon the high plane that such an office demands, and have, so far, refrained from mentioning some things that perhaps should have been mentioned sooner. My reason for doing so being that I hoped the people would, of themselves, see the trend of matters and take warning. But some things have developed in this race that demand plain speaking, and I am convinced that it is for the good of the Democratic party that I should call your attention to them.

The Democratic party cannot afford to be made a tool of by any organization for any purpose, and when an attempt is made to use the party for a purpose, it becomes a living, vital issue of more importance than any other issue, and the people should forever settle it, and show that the Democratic party stands for law and order, and for equal rights to all and especial privileges to none.

I must say that I have for some time seen indications of the trend of things to the matter of which I am going to speak, but have been hoping that it would be seen and corrected without the necessity of making it public, but, after a careful survey of the field during the last few weeks, I am convinced that the people are not fully awake to the true condition that exists. I have always believed in and endorsed Farmers Unions or associations, and labor organizations, organized for legitimate purposes, and conducted

in a lawful manner and I have given them my hearty support.

You all know that several years ago there was an organization created throughout Western Kentucky known as the Night Riders. I realize that many good men throughout this district became associated with this organization, believing, at the time, that it was necessary, for the protection of their interests, to become members. After the organization became active many of the members saw their mistake, and many things were done that did not meet with their endorsement but their months were closed by their obligations, and they kept silent; they have no desire to keep up the organization, the conditions that caused it having passed away. Its work is now past history and should be buried and forgotten. Many others stood by the organization in sympathy, if not by active help, and seem disposed to keep it alive. We have today, in this district, an organization, commonly called "Possum Hunters," and this organization has been in active operation in some of the counties within the past year. For some reason these organizations, and nearly every member of them, so far as I know, throughout the district are actively opposed to my election. You can go into every county of the district, and where you find a member you will find that he is against me.

I had rather be defeated a thousand times than to take any obligation that would bind me, in any way, to protect the guilty or to do as Judge but equal justice to every one according to the light that God would give me, and I promise you here and now that, if I am elected, it is my purpose to do everything in my power to put an end to possum hunting and like offences in this district, and to that end, I shall endeavor to have Jury Commissioners, who will select juries, who will see that the law is enforced in every particular.

Gentlemen, the fight is on, the lines are drawn. I have not made the fight, it has been made against me. These organizations are against me, and I call upon all of you, who love the law and want your families

Paxtine

A Soluble Antiseptic Powder to be dissolved in water as needed For Douches

In the local treatment of woman's ills, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been relieved say it is "worth its weight in gold." At druggists. 50c. large box or by mail. Sample free. The Paxton Toilet Co., Boston, Mass.

Lay-to for a spell and swing on this:

You'll start an old-pal-party via a pipe or a makin's cigarette quick as a flash, as soon as you realize it's a live bet to let your good money rub up against some Prince Albert tobacco. Why, it's like beating back to the bushes for old-home week, P. A.'s so friendly, so chummy-like.

You see, Prince Albert lets you hear the song of the joyus jimmy pipe and the makin's cigarette all the day long! The patented process takes care of that—and cuts out the bite and parch!

PRINCE ALBERT

the national joy smoke

just hands you home-made questions like these:

Were you ever pipe-happy? Did you ever hit a brand that just pushed pleasure against your palate? The kind that sort of teased your smokeappetite for some more fire-up, then another—and so on, right to the pillow-period!

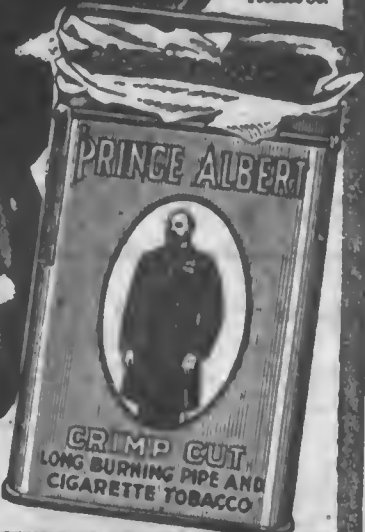

Well, that's P. A., no matter how you hook it up—pipe or cigarette. It just jams-joy into your system! You nail that fact hot off the bat, because it's case-cards information! And handed out to you for personal and immediate attention as being about as real and true as you've heard since Hector was a pup!

P. A. is sold in the toppy red bag for the price of a jitney ride, 5c; tidy red tin, 10c; pound and half-pound tin humidors—and—the classy pound crystal-glass humidor with the sponge-moistener top that's not only a joyus thing to have at home and at the office, but it keeps P. A. in the highest state of perfection.

R. J. REYNOLDS TORACCO CO., Winston-Salem, N. C.

Here is Casimiro Irado, 104 years old, who lives in Watsonville, Cal. He has a remarkable memory and clearly recalls the war in Spain in 1822, when he was a lad of 12 summers. Irado has been a smoker all his life, and today he smokes no dearer, no finer brand than his old jimmy pipe. Irado has been elected a member of the Prince Albert "old-time jimmy-pipe club."

BLOODIER WAR YET SEEN BY HARRISON

Limit of Ferocity Will Not Be Reached Until Allies Get Into Germany

London, July 27.—"The German Peril," a book issued by Frederick Harrison, the publicist, contains the following passage:

"Let us not think that any kind of words, or any kind of agreement, or compromise, or mediation can avail us in this, the fiercest trial of our English blood; nor let us vainly imagine that the enemy will relax in his delirious trust in frightfulness, or spare us one pang which he can inflict on us."

"It is my firm belief that when we have driven him back to his own laud, and we shall drive him back—we must, unless we are to be forever ruined—scenes of horror, almost of mutual extermination, will take place, exceeding anything that we have yet known in ferocity, destruction and blood."

The Lakes Are Calling You

Tourists from all parts of the country are this year seeking the Great Lakes for the recreation trips, and to those who have never before enjoyed the delights of these great waterways the large and splendid steamers and unexcelled service will be a revelation. This is particularly true of Lake Erie upon whose waters plies the Great Ship "SEEBANDER," daily between Cleveland and Buffalo. This great ship is 500 feet long, 98 feet 6 inches wide and has 510 staterooms and parlors de luxe accommodating 1600 passengers which equals the sleeping capacity of the largest hotels in the country. The splendid steamers "CITY OF BUFFALO" and "CITY OF ERIE" also ply on this route and with the Great Ship "SEEBANDER" maintain daily service between Cleveland and Buffalo, leaving either city at nine o'clock in the evening and reaching destination following morning at 7:30.

In point of expense these lake trips are by far more economical than travel by rail, and once one has tasted of their delights, succeeding vacations are sure to include a lake journey.—Adv.
